Everyone is in love with our Dichondra Silver Falls , including the wild life.

This beautiful and attractive silver foliage plant is very easy to look after, it handles the heat well and is perfect for full sun or shaded areas. Do not over water.

Do you want to know the best part?

They are available in our 300mm Hanging Basket Collection and grown in the right conditions the plant will trail down over the sides up to 2m in length!

This amazing visual treat is already available at your Local Nursery or Garden Centre and is a good idea as a Christmas gift this year.
